

“Retail It” supplemental form

This supplemental form is designed to allow the TBCM Manager and Vending Committee to evaluate your products. If you are applying to retail a product that someone else has produced you must provide information on your relationship with the producer, where the product(s) originate, how they produce the product, what makes it unique, and why it should be considered by the TBCM.

If you intend to retail a product by another local vendor on a commission basis, that vendor must also apply to be a sub-vendor (see Application to Vend – Sub-vendors). Sub-vendors must be approved by the Vending Committee.

Please be advised that non-local Retail products are the least likely to be approved, as our focus is on the Market having locally produced items fitting into the Make it, Bake it or Grow it categories.
